

# NATIONAL POST-SCHOOL OUTCOME SURVEY (NPSO)

## Help us Prepare Students for Success after High School

---

Educators care about students with disabilities and want to make sure that they are prepared for adulthood, meaningful employment or further education when they leave school.

**One year** after leaving high school, **a designee of the Department of Public Instruction** may call, email or send a letter to ask if your child is going to college, vocational school or working...if you receive a letter from an out of state agency don't be alarmed!

Responding is voluntary yet important! **Your answers will:**

- Tell schools how prepared students are for further education and employment;
- Help schools identify what services to adapt;
- Help schools focus on student's success beyond the classroom;
- Identify areas for teacher training and support.

### WHO'S INCLUDED IN THE SURVEY?

**Former students** who had an Individualized Education Program (**IEP**) during their last year of high school and who are no longer enrolled in school will be asked to complete the survey. Information may be gathered from a **parent, guardian or caregiver like yourself**.
